

Name: _____

Why Use Informal Interviews?

What is an INFORMAL INTERVIEW?

An informal interview is any contact with a person who could hire you even if there is no job opening now. It also includes contact with a person who knows about job openings or could recommend you.

INFORMAL INTERVIEWS are important because they:

- ❖ Allow you to interview with many people you would not usually see
- ❖ Encourage you to talk to a potential employer before a job is opened
- ❖ Do not make you wait for an advertisement before contacting a potential employer
- ❖ Give you the freedom to look for the job you want and not just take what is open now
- ❖ Will help you get a job much faster than using the old ways for getting a job
